

**OPERATIONAL INTERVENTIONS CURRENTLY BEING IMPLEMENTED TO ADDRESS  
30% REDUCTION IN SUPPLY FROM HAZELMERE WATER WORKS**

Hazelmere WW has reduced production from 45 mega litres per day to just 30 mega litre per day to meet the first phase of 30% reduction.

With the recent imposition of LEVEL 3 Restrictions on the Water Service Authorities (WSA) due to the weakening situation, it is now the duty of each WSA to reduce the consumption by **50%** with immediate effect.

The areas within EThekweni Municipality that are affected by the severe drought conditions are:

<b>Item No.</b>	<b>Reservoir Names</b>	<b>Operational Details</b>	<b>Planned Water Interruption Durations</b>	<b>Frequency</b>	<b>Area Supplied &amp; Affected</b>
